## Foundations of Advanced Mathematics 1pm MWF Spring 2019 SH309

Instructor:	Jonathan White
E-Mail:	JWhite@Coe.Edu
Web Page:	http://public.coe.edu/~jwhite/
Office:	Stuart 316
Office Hours:	9:30-10:50am MWF and by appointment
Office Phone:	399-8280
Home Phone:	362-3350 (between 7am and 10pm)
Text:	<i>Foundations of Advanced Mathematics</i> , 0.10th Edition, White (available via Jon's Central Page)
Participation:	Day-to-day class participation, presentations, and snap quizzes will be a prominent aspect of this class, and together worth 200 points.
Problem Sets:	There will be problem sets due most weeks of the semester. Together these will be worth 200 points.
Math Culture:	Math Culture Points will constitute 200 points. These are earned through various activities outside of class, as detailed on page 3 of this syllabus.
Exams:	There will be four small in-class examlets administered during class time. The dates of these are indicated in the schedule on the back side of this sheet. These examlets will be worth 50 points each.
	The final exam will be held during finals week at the date and time indicated on the back side of this sheet. The final will be worth 200 points.
Grading:	Grading will approximately follow a $[92.0\%, +\infty) \rightarrow A$ , $[90\%, 92\%) \rightarrow A$ -, $[87\%, 90\%) \rightarrow B$ +, $[82\%, 87\%) \rightarrow B$ , $[80\%, 82\%) \rightarrow B$ -, $[77\%, 80\%) \rightarrow C$ +, $[72\%, 77\%) \rightarrow C$ , $[70\%, 72\%) \rightarrow C$ -, $[67\%, 70\%) \rightarrow D$ +, $[62\%, 67\%) \rightarrow D$ , $[60\%, 62\%) \rightarrow D$ -, $(-\infty, 60\%) \rightarrow F$ scale.
Makeups:	For fairness to those who follow the schedule, makeups for exams will be allowed only in extenuating circumstances, with documentation and advance notice when humanly possible. Late problem sets will be penalized 20% of points possible for each day late, and only accepted until others are returned.

This class is intended to achieve several goals, but primary among them is to give some accurate idea of what mathematics actually is. The specific content of the course is secondary, but my hope is to give a good exposure to many topics which are helpful or necessary to further study in mathematics and related fields. These include, but are not limited to, the basics of number theory, set theory, functions, logic, and combinatorics.

This course will be profoundly different, both in subject matter and in daily conduct, than what most of you are accustomed to in a math class. Please understand that it's different on purpose, with very clear reasons in mind. It is extremely important that you come to class each day prepared to do several of the upcoming problems. You will probably have to find different ways to learn things in this class than in any math class you've taken before. Don't let that be overwhelming, and remember that I'm around to help.

"Doubt everything at least once, even the proposition that two times two equals four." —Georg Christoph Lichtenberg (1742-1799)

	1 1	
1/14	1/16	1/18
Parity	Beyond Parity	Divisibility
1/21	1/23	1/25
No Class – MLK Day	Modular Arithmetic	Basic Logic
1/28	1/30	2/1
Quantification	Proof Techniques: Contradiction	Proof Techniques: Induction
2/4	2/6	2/8
Proof Techniques: Cases	Additional Proof Techniques	Examlet 1
2/11	2/13	2/15
Sets	Operations on Sets	Arbitrary $igcup$ and $igcap$
2/18	2/20	2/22
Inequalities	Real Intervals	Absolute Values
2/25 Cartesian Products	2/27 Russell's Paradox No Class – Spring Break	3/1 Examlet 2
3/11	3/13	3/15
Functions	Operations on Functions	Composition
3/18	3/20	3/22
Injectivity & Surjectivity	Inverses	Countability
3/25	3/27	3/29
Uncountability	The Continuum Hypothesis	Examlet 3
4/1	4/3	4/5
Relations	Properties of Relations	Equivalence Relations
4/8	4/10	4/12
Relations as Sets	Relations as Graphs	Graphs
4/15	4/17	4/19
Graphs	Directed Graphs	Examlet 4
4/22	4/24	4/26
Combinatorics	Probability	The Peano Axioms
4/29 The Peano Axioms	5/1 Reading Day	
	Final Exam – 11am Monday 5/6	

## FOUNDATIONS OF ADVANCED MATHEMATICS 1PM MWF SPRING 2019 SH309 Tentative Schedule

Any students with disabilities which might affect their performance in this class should contact me as soon as possible to arrange accommodations.

Coe's faculty has adopted an academic integrity policy. It is your responsibility to understand and follow it.

Diversity, in all its forms, is valuable.

## FOUNDATIONS OF ADVANCED MATHEMATICS 1PM MWF Spring 2019 SH309 Math Culture Points

A portion of the grade for this course will take the form of Math Culture Points. These will be earned through activities outside of class including, but not necessarily limited to, those listed below. Note that none of these are mandatory – there are far more opportunities than necessary to earn full credit. You should be able to select activities that are particularly relevant to you.

Activity	Points	Max #
Colloquium Attendance		
Colloquium Presentation		2
Meeting Attendance		2
Midwest Undergraduate Mathematics Symposium (4/13)	30	
Nebraska Conference for Undergraduate Women in Mathematics (1/25-27)		
SIGCSE Technical Symposium (2/28-3/2)	30	
ISU Hack-a-thon (?)	30	
Math Culture Reading		
Some weeks specific readings will be posted on Moodle	10	-
Articles from Math Horizons		5
With approval, articles from Math. Magazine, The College Math. Journal, etc.		3
Math Club Activities (when appropriate)		5
Winter Break Book Discussion, Movies, Pi Day Celebration, Workshops, etc.		
Other Appropriate Coe or Outreach Activities		
Contemporary Issues Forum (1/29)	10	-
Chess Club Meeting		4
Attending a Quantitative Research Symposium Presentation		3
Job Shadowing in any relevant field		1
Working with students at McKinley Middle School, etc. (see Jon)	10	5

You should plan to spread your participation through the semester. In each case, credit assumes both full participation and posting a brief summary/response on Moodle **in a timely manner**. These reflections should generally be between 100 and 300 words, and include both a brief summary and your personal thoughts on the event, and **must be submitted within one week of the event**, or within the specified time window for other activities. Up to three units of credit may be submitted after normal deadlines in the "Math Culture – Late" category on Moodle, but otherwise exceptions will not be made without serious extenuating circumstances.

The Provost has mandated that the material below this line appear on all syllabi:

Academic Integrity ? At Coe College, we expect academic integrity of all members of our community. Academic integrity assumes honesty about the nature of ones work in all situations. Such honesty is at the heart of the educational enterprise and is a precondition for intellectual growth. Academic dishonesty is the willful attempt to misrepresent ones work, cheat, plagiarize, or impede other students academic progress. Academic dishonesty interferes with the mission of the College and will be treated with the utmost seriousness as a violation of community standards. ? Please refer to the Coe College Academic

Catalog for complete information regarding Academic Integrity or this weblink www.coe.edu/academics/academic-resources/provosts-office/academic-integrity-policy FERPA ? Students should be aware of their rights regarding the privacy of their educational records. Detailed information about your rights can be found under the FERPA (Family Educational Rights and Privacy Act of 1974) section in the Academic Catalog and online here:

www.coe.edu/academics/academic-resources/registrar/ferpa ? In line with FERPA restrictions, students should be aware that their instructor cannot publicly post grades by student name, institutional student identification number, or social security number without first having obtained students written permission. Students with Disabilities ? If you have a hidden or visible disability which may require classroom or test accommodations I encourage you to visit my office during Office Hours or email to schedule an appointment at a mutually suitable time so we can discuss ways to support your learning. ? Coe College, in compliance with equal access laws, will make reasonable accommodations for persons with documented disabilities. Students are required to meet with Kim Pierson, the Accessibility Services Coordinator to verify disability. The Accessibility Services Office is located in the Learning Commons on the lower level of Stewart Memorial Library. This office is responsible for coordinating accommodations and services for students with disabilities. Please call 319-399-8844 or x8844 to schedule an appointment. For details on Coes Accessibility Services, see:

www.coe.edu/application/files/4615/3140/6378/disability-handbook.pdf? Reporting of Sexual Misconduct ? As an instructor, one of my responsibilities is to help create a safe learning environment on our campus. I also have a mandatory reporting responsibility related to my role as a faculty member. It is my goal that you feel able to share information related to your life experiences in classroom discussions, in your written work, and in any one-on-one meetings. I will seek to keep information you share with me private to the greatest extent possible. However, I am required to share information regarding sexual misconduct or students who may be in danger to themselves or to others. Students may speak to someone confidentially by contacting Student Development at 319-399-8843 or Safety and Security at 319-399-8888. ? The Definition of a Course Credit, Expected Workload and Grade Basis: ? One course credit at Coe College constitutes 150 hours (This is a 60 minute hour) worth of student work over the course of the term. This figure includes both the time spent in class and the time spent out of class completing course work. In other words, students are expected to devote a considerable amount of time outside of class to this course. For courses that meet in a standard M-W-F or T-Th slot, students should be expected to work nine hours a week outside of the three hours in class. You must also explain in the syllabus students how final grades with be determined in the course.
